

# MAGICSTREAM®

## LAMINARS

Crystal clear by day, dramatic color at night.

MagicStream Laminars create totally clear, uniform arcs of moving water that originate from either your pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored with an energy-efficient LED light source. The result is a water effect that adds an elegant bit of entertainment to your poolscape.

## MAGICSTREAM® LAMINARS

Enhancing the entire sensory experience.

MagicStream Laminars clearly add to the sights of your backyard sanctuary. But, they also provide a soothing auditory experience as the stream gently enters your pool—just a hint of sound to mask neighborhood noises that may otherwise interrupt your down time.

The laminars synchronize with IntelliBrite® 5g Underwater Color-Changing LED Pool and Spa Lights and ColorVision® Bubbler with separately sold GloBrite® LED Lights. They also work with the optional IntelliBrite Controller and Pentair automation systems to give you fast and easy control of your lighting experience.

For even greater control, add an optional ScreenLogic® Interface\* to your Pentair automation system to access your pool from practically anywhere and at anytime using your smartphone, computer or mobile digital device, Amazon Echo®, Apple Watch® wrist-wearable device.

### KEY FEATURES

#### Water stream adjustability

Adjustable housing allows you to customize the water arcs to meet your desired needs.

#### Easy-to-adjust nozzles

Laminars can be easily adjusted in two ways. They can be set to create different heights and arc shapes, and the direction the arc is pointed can be moved right or left. Get creative by varying the height, arc shapes, direction and color of individual streams.

#### Easy removal and replacement

Laminars are designed to be easily taken out of a poolscape and replaced.

#### Microprocessor-controlled LED system

A microprocessor-controlled, color-changing LED lighting system is at the heart of the MagicStream Laminar. Options include holding a steady color or scrolling through a range of five vibrant LED colors and 7 dazzling light shows.

#### Flush installation

Installation is made flush to your deck or other surface; no unsightly or unsafe edges, just the magic of water erupting from a hidden source.

#### Optional box lid colors

Laminar box lids are available in tan, black and gray to match or complement pool decks or other installation surfaces.

#### Fully assembled

MagicStream Laminars come fully assembled and ready to install on nearly any water return line. To create spectacular nighttime effects, an LED light engine is included. Simply add plumbing and a pool transformer to provide just 16 watts of 12-volt power.

\*The Pentair ScreenLogic Interface for MACINTOSH® DESKTOP COMPUTERS IS NOT COMPATIBLE with the recently released 64-bit-speed Macintosh CATALINA Operating System. Customers who update their Mac desktop computers to the new Catalina MacOS® will no longer be able to use the ScreenLogic Desktop Interface. Please NOTE: This change DOES NOT AFFECT iPhone®, iPad® mobile digital devices, Amazon Echo or any other ScreenLogic Interfaces. Only MAC® computer desktop users with ScreenLogic who update to the new Catalina OS will be affected.
